

Responses to Q10: What difference has the campaign made to you?

- We are visitors to the Parish today from Bexleyheath. We will take a copy of this form back to our parish and will hopefully inspire others to follow the same. Thank you.
- Made us aware of protecting the environment.
- Trying!
- It has been good to think as a Parish. Helps us keep the faith and builds sense of community purpose.
- Made me pause for thought.
- It's normal routine in our family life!
- Highlighted the importance of living in a simple way to make a better world.
- Very grateful...for the education/information on the newsletter; the opportunity to give up/give away stuff. My big failing remains plastic cartons - I know this is important but I haven't tried - feeling it too huge to tackle. But I could still start with one thing (and not all, which would be too much to cope with.) Please, before Christmas, could you organise a getting rid of socks, scarves, gloves/jackets for the homeless or charities to distribute?
- We have lived the simple life for over 40 years - own allotment, grow all our own food, veg, fruit, eat no meat etc. Good luck to you.
- With the addition of our daughter to our family this year it has made us think more about ways we can live more simply. We are attempting to use reusable nappies to save sending lots of nappies and wipes to landfill.
- Made us more aware of what we can do to live simply.
- We are new to the parish but we already feel highly motivated - must do more on Fairtrade and foodbank.
- Great initiative, lets keep it up!
- I am more aware of not wasting natural resources in the course of everyday life.
- Monthly gift to CAFOD.
- We are more aware of Fairtrade symbols when shopping.
- Very good - I will collect questionnaire and disseminate everywhere in my flat, family.
- It makes me feel better when I've done something positive. It makes me feel happy and like Jesus just done a miracle in my heart.
- It has made us think before acting when it comes to consumption (which is in many cases unnecessary).
- We were able to save money.
- Have made us more aware of saving energy.
- Car pooling.
- I do more about what I eat and avoid wasting food.
- It's been really helpful to have Live Simply repeated over and over to remind us and encourage us. I'm aware that there are some things that are easier to do if you have enough money - buying Fairtrade costs more than non-Fairtrade; buying organic veg is better for the planet than pesticide treated veg but costs much more. How can we Live Simply if we don't have much money? We already do everything on the tick list - what is the next level?
- Do not litter because it goes to the sea and animals will eat and die.
- Work in progress - changing behaviours is an ongoing continuum.
- Very important campaign. We need to be reminded about the environment.
- Good that we are working in sustainability. I encourage it - keep creating awareness.
- Use cloths instead of throw-away wipes.
